Guidelines for Community Service Activities

- Service activities may be performed through a non-profit organization, or a for-profit organization as long as the recipient of the service does not profit monetarily from it.
- Service activities must be performed without financial or other compensation.
- Service should be completed with a positive, courteous, and enthusiastic spirit. All service activities should be focused on making a difference within the community through direct or indirect means.
- All members of the National Honor Society are expected to complete 15 hours of service before the end of first semester, and an additional 15 hours of service before the next initiation ceremony— April, 2017. This constitutes 30 hours of service.
- All Maine West High School behavioral expectations and policies are in effect while a student is serving at that community site.
